

# Cosmo-Sport's Professional Instructors

## Guy Cosmo

Founder of Cosmo-Sport, Guy Cosmo is one of the most successful and versatile young racing drivers of his day. Having begun his driving career as a father-son hobby racing go-karts, the two 'Guys' quickly realized a career in motorsports was no pipe-dream. After seven years of intense karting competition with numerous race wins and championships throughout North America, Guy was invited to compete in the World Championship of Karting in France, where he not only proved his speed and skill as an internationally-competitive driver, but also proved that American drivers weren't so well received in European kart racing, such as in Formula One, and returned home from his trip with a number of bumps and bruises! Guy and his father then moved to Formula Cars where Guy won both races and championship titles in Formula Ford, Formula 2000 and the Star Mazda North American Championship and notched solid results in the Toyota Atlantic Championship and tested an Indy Lights car - all with hopes of a career in Champ Cars. However, as with countless drivers world-wide, opportunity was slim and Guy quickly found opportunity and success in Sportscar Racing. Guy has since proven himself as a top-level front-runner in the Grand-Am Rolex Series driving Daytona Prototypes, became the 2005 Rookie of the Year in the American Le Mans Series driving an LMP-2 Prototype for the factory Mazda program and claimed wins in the KONI Challenge Series GS and ST categories. Guy keeps busy between his hectic racing schedule as a much sought-after driver coach for clients nation-wide, providing private driver coaching and instruction in series like Ferrari Challenge, IMSA Cup, Porsche Club, Star Mazda, Formula BMW, Rolex GT, KONI Challenge, Historics and many others, in addition to teaching for a number of sports car and super car driving programs. In his remaining few minutes of the day, Guy exercises his entrepreneurial side focusing on the day-to-day management and operation of Cosmo-Sport, COSMEDIA and his continually growing driving career.

Experience: Grand-Am Rolex Series, KONI Challenge, American Le Mans, Toyota Atlantic, Star Mazda, USF2000, Scandinavian F2000, SCCA, PBOC, PCA, CHIN, NASA

## Shane Lewis

Daytona Prototype driver Shane Lewis has been racing since 1989. He has won multiple races in Grand-Am, IMSA, SCCA Pro Racing and has podium finishes, class victories and overall wins throughout the world. Lewis has driven in twenty four 24-hour races including three 24 Hours of Le Mans, ten 24 Hours of Daytona, two 24 hours of Nurburgring and has two overall and one class-victory at the 24 Hours of Nelson Ledges. He has raced in seven 12 Hours of Sebring, five Petit Le Mans, four One Lap of Americas and was the 1998 Professional Sports Car Racing Rising Star award winner. He acted as lead test driver for Don Alexander's best selling book 'Performance Handling for the 90's'. In addition to racing, Lewis offers private driving instruction and race coaching.

Experience: Grand-Am Rolex Series, KONI Challenge, American Le Mans, IRL, Indy Pro, FIA GT, PCA, PBOC, SCCA, HSR, SVRA, Historic GP, CHIN

## Peter Argetsinger

Peter Argetsinger is arguably one of the most well known and respected driving instructors of our time. Having begun his driving career over seas competing in British Formula Ford against some of the most notable names in racing history, Peter cut his teeth in the competitive environment with enormous success - winning championship and major races throughout Europe and the US. Peter also worked with Jackie Stewart on his corporate outings at Brands Hatch in England, and then went on to instruct thousands of private clients, including members of the House of Lords for UK celebrity races, former World Champion Damon Hill, and CART, Formula 1 and NASCAR driver Juan Pablo Montoya.

Experience: Grand-Am Rolex Series, KONI Challenge, American Le Mans, IRL, Indy Pro, FIA GT, PCA, PBOC, SCCA, HSR, SVRA, Historic GP, CHIN
